

# Image Transformation, Encryption, and Recovery

Student Name and ID: [REDACTED]

## Abstract

## Introduction

### Problem Statement and Context

### Background and Theoretical Framework

### Review of Existing Literature

### Research Gap and Rationale

### Research Objectives and Hypotheses

## Methods

### Research Design

### Data

### Procedures

### Data Analysis

### Ethical Considerations

All the images used in this project except for `this_is_fine.png` are solely my own, and `this_is_fine.png` is used under educational fair use for non-commercial analysis.

## Results

## Discussion

### Interpretation of Results

**Comparsion to Literature**

**Limitations**

**Implications**

**Further Research**

**Conclusion**

**Summary of Key Findings**

**Research Contribution**

**Broader Implications**

**Final Thought**

**Acknowledgements on LLM Usage**

**References**

**Appendix**
